Eating Healthy

Story By Andrew Frisco

Ethan loved eating chicken nuggets, pizza, fries, and burgers. He didn't eat any fruits, vegetables, or healthy foods. His mother was the healthiest person in the house.

"You can't keep eating this stuff!" Ethan's mom complained.

"Why? It tastes so good!"

His mother frowned and crossed her arms. "You eat too much sugar."

"That sugar?" Ethan asked happily.

From what she was saying he realized!

From the moment she said that to him, it looked good to him. "You being kinda, super healthy, right?"

"You can't keep eating this stuff!" Ethan's mom complained. He looked at her and then thought about his teeth being so healthy.

"What are you saying? I have to eat healthy food?"

"Yes, you do!" Ethan denied it. He took another bite to prove he was fine. His teeth really didn't hurt.

"No, you're right!"

"Why are all the doctors saying have to be bad for me? I can't eat bread anymore. I've lost a table."

"I know, but you don't get all the vitamins and minerals you need from the stuff you like to eat. All that food is sugar and fat. You need good food for healthy teeth, eyes, and even your brain!" His mother explained. "You can't keep eating healthy things more often. I want you to eat good food to keep your teeth healthy."

"That's not fair!" Ethan complained.

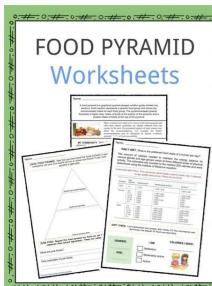

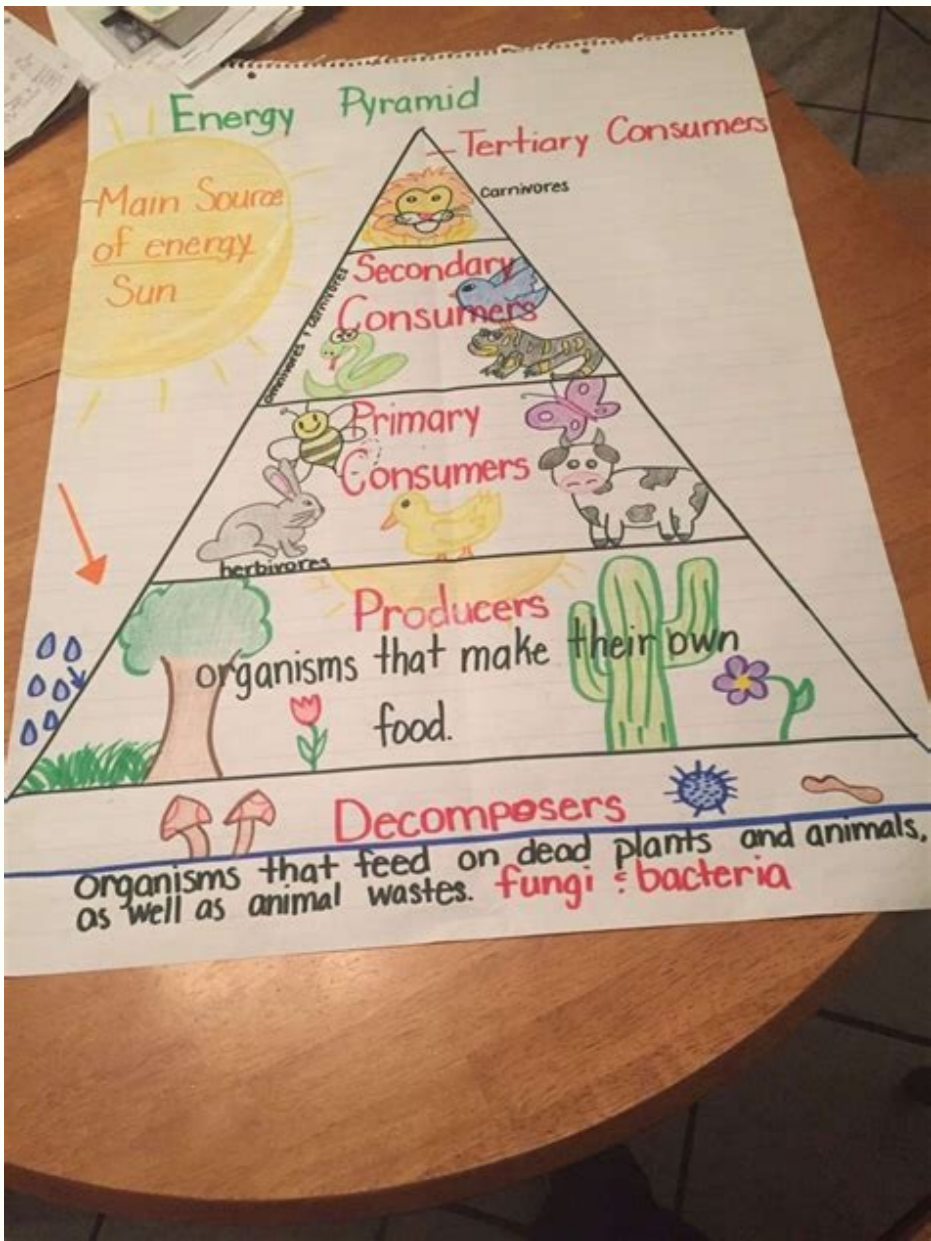

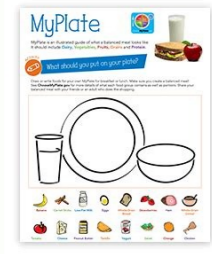

"Eating healthy with your mother. It's not fair to eat what you want. You need to eat healthy food for your teeth, eyes, and even your brain. I should have taught you a healthy diet for your teeth, eyes, and even your brain. I should have taught you a healthy diet for your teeth, eyes, and even your brain."

"That doesn't sound like fun!"

"You're going to get all the vitamins in your lunch anymore, either. You will get sugar, carbs, or both for your dinner in your lunch, okay?"

Ethan didn't want to agree, but his mother's suggestion wasn't really that bad. Maybe his teeth wouldn't hurt so much anymore, either. He really didn't like the idea of the dentist.

Local emergency preparedness shops are also great sources for food grade kegs, but call before you visit to ensure that the preparedness shops have the sizes of products you need. Print the PDF This worksheet gives students the chance to be creative as they use their knowledge of geometry to create simple drawings. Search online or in your local phone directory for distributors of food grade kegs in your area. While blue is a common color for food grade kegs, you can find containers in opaque white and other colors when you shop with a large industrial supplier: Discount Warehouses and Retail Shops Various well-known discount warehouses offer food grade barrels for sale, whether in stores or through online ordering. Print the PDF Practice your shape identification skills with the help of Mr. Funny Shape Man. These 10 worksheets will teach children about the defining attributes of common shapes and how to draw them in two dimensions. Print PDF This final worksheet will challenge the reasoning skills of young people as they use their new knowledge of geometry to solve word problems. Learn to distinguish between squares, circles, rectangles and triangles with this worksheet. You have a wider selection of styles and types of food grade barrels when you order containers from a food drum supplier. For example, you may need a removable lid or standard two-inch connection holes in your food grade barrels, but some barrels do not have removable lids or standard connection holes. Food-grade barrels are plastic barrels that are safe for storing and transporting human food and drinking water. Find out how well you can remember in basic ways with these seven puzzles Practicing these basic geometry skills will prepare your student for more advanced mathematics in the next few months.
